Dear Dr. Parker:

Enclosed are the forms and information for you and your colleagues to use in applying for a Council for Tobacco Research grant. The deadline is December 31, but usually if received by the third week of January, 1983, the application will be considered at the April meeting.

If approved and funded, work could begin July 1, 1983. Competition for our funds is keen, but scientific merit is the overriding consideration. Relevance to smoking and health is no longer considered important.

Yours sincerely,

Sheldon C. Sommers, M.D.
